

```

using System;
using System.Collections.Generic;
using System.ComponentModel;
using System.Data;
using System.Drawing;
using System.Linq;
using System.Text;
using System.Threading.Tasks;
using System.Windows.Forms;

namespace Windows_Forms_Ass_Eligible_for_vote_or_not
{
    public partial class Form1 : Form
    {
        public Form1()
        {
            InitializeComponent();
        }

        private void label2_Click(object sender, EventArgs e)
        {
        }

        private void button1_Click(object sender, EventArgs e)
        {
            int age=Convert.ToInt32(textBox1.Text);

            if(age>=18)

```

```
        {  
            label2.Text = "Your Eligible For Vote !!";  
        }  
        else  
        {  
            label2.Text = "SORRY !! Your Not eligible";  
        }  
    }  
}
```

The screenshot shows a Windows application window titled "Voting Eligibility". Inside the window, there is a label "Enter Age" followed by a text input field containing the number "16". Below the input field is a blue "Submit" button. At the bottom of the window, a label displays the message "SORRY !! Your Not eligible". The window has standard Windows controls (minimize, maximize, close) in the top right corner.
